VIVEK DEBNATH

Senior IT Project Manager & Software Project Manager

Results-oriented IT Project Manager with 12+ years of professional experience orchestrating multi-platform digital ecosystems, requirement gathering, and cross-functional team coordination. Expert in the Software Development Life Cycle (SDLC) and Agile methodologies, translating complex business requirements into actionable technical plans. Focuses on coordinating frontend/backend developers, UI/UX designers, and QA teams to deliver scalable, user-centric software solutions.

PROFESSIONAL EXPERIENCE

Senior IT Project Manager

Feb 2019 – Jun 2026

NexG — IT Services & Software Development • Bhopal, India

Managed cross-functional product development cycles, coordinated development teams, and facilitated client communications. Led project planning, sprint coordination, and deployment execution for the following core platforms:

- **eRestro (Restaurant ERP & POS):** A POS & inventory SaaS system. Mapped menu-to-billing logic, led sprint planning, prioritized features, coordinated UAT, and managed deployment timelines. *Challenge:* Consolidating dynamic dine-in and delivery workflows into a single POS template. *Outcome:* Unified ERP eliminated order routing errors.
- **ElectricDada (Electrical Service Marketplace):** A multi-sided local electrician marketplace. Documented customer, electrician, and shop owner journeys, and created milestone plans. *Challenge:* Designing technician matching that remained operational on low-bandwidth networks. *Outcome:* Successful MVP launch enabled booking transparency.
- **NexG HRMS:** Internal enterprise HRMS. Mapped employee tracking, payroll, recruitment pipelines, and attendance modules. *Challenge:* Transitioning manual payroll and dynamic shifts into an automated workflow. *Outcome:* Deployed portal reduced manual processing times.
- **NexG Homecare:** Healthcare home service dispatch system. Documented visit scheduling, dashboard views, and doctor/patient allocation logic. *Challenge:* Designing mobile logs that protected patient privacy. *Outcome:* Compliant home healthcare coordination portal.
