 Bhopal, India  vivekdvnath@gmail.com  <https://www.linkedin.com/in/vivek-debnath-4400321a4/>  <https://vivek-portfolio-six-rust.vercel.app>  <https://github.com/Asccvivek>

CAREER SUMMARY

Results-oriented IT Project Manager and Operations Strategist with hands-on experience orchestrating multi-platform digital ecosystems, AI-assisted workflows, and marketplace architectures. Proven ability to coordinate cross-functional teams, architect operational dashboards, and drive product execution from concept to deployment across 13+ technology platforms spanning service marketplaces, SaaS products, and startup ventures. Combines deep technical workflow understanding with strategic product thinking to deliver scalable, user-centric digital solutions.

EXECUTIVE BIO

Vivek Debnath is a technology operations professional and project management strategist specializing in AI-integrated workflows, service marketplace ecosystems, and digital product coordination. With a portfolio spanning 13+ platforms across healthcare, hospitality, logistics, legal-tech, and home services, Vivek brings a rare combination of startup agility and enterprise-grade operational thinking. His approach integrates AI-assisted productivity systems with traditional project management frameworks to accelerate delivery timelines and optimize resource allocation. Known for translating complex business requirements into actionable technical roadmaps, he operates at the intersection of product strategy, technical coordination, and operational excellence.
