PROFESSIONAL EXPERIENCE

Senior IT Project Manager

Feb 2019 – Jun 2026

NexG — IT Services & Software Development • Bhopal, India

Led cross-functional software delivery across multiple digital products, coordinating requirement gathering, sprint planning, QA/UAT, release management, and stakeholder communication across hospitality, HR tech, healthcare, CRM, and service platforms.

eRestro — Project Manager / Business Analyst: Led requirement gathering and workflow design for a restaurant ERP and POS platform covering inventory, QR ordering, KDS, and billing logic. Coordinated sprint planning, QA, UAT, and production rollout while helping define menu hierarchy and order-routing workflows.

FoneZone — Delivery Lead, Refurbished E-commerce & COD Ops: Shipped a storefront with 360° studio inspection, 32-point video proof and a 2-way WhatsApp OTP bot; modelled business outcome at **₹13.3L annual RTO savings** and up to 28% fewer wasted COD shipments.

AI Transmission Tower & Powerline Inspection — Delivery Manager: Managed a computer-vision product that cut defect compliance review from **2–3 weeks of manual photo zooming to 15–20 minutes** of automated screening, including drone photo intake, severity scoring and auto-generated per-tower audit reports.

ElectricDada — Project Manager / Product Planner: Planned multi-role workflows for customers, electricians, shop owners, and admins in an on-demand services marketplace. Defined functional requirements, tracked milestones, and supported QA/UAT for MVP launch.

NexG HRMS — Project Manager: Managed requirement gathering for payroll, attendance, recruitment, and employee directory workflows. Coordinated sprint schedules, bug triage, and release validation for the HRMS platform.

NexG Homecare — Technical Project Coordinator: Supported delivery of a healthcare home-service platform by coordinating provider workflows, security requirements, stakeholder communication, QA/UAT, and deployment planning.

Elite Works CRM — Project Manager: Led requirements and backlog coordination for GPS attendance, inventory tracking, and field reporting workflows. Helped define offline sync logic and supported QA/UAT and release planning.

Salonix — Project Coordinator: Mapped booking, scheduling, and staff allocation workflows for a salon booking platform. Coordinated sprint planning, user feedback handling, and testing for appointment conflict resolution.

Additional projects: Unity Greet, 1-Tom-Plumber and Synergy Tech — sprint coordination, requirement documentation, QA/UAT and release tracking.
