

VIVEK DEBNATH

SENIOR IT PROJECT MANAGER | SOFTWARE PROJECT MANAGER | TECHNICAL PROJECT COORDINATOR

+91 9394242828 vivekdvsnath@gmail.com Bhopal, MP, India linkedin.com/in/vivek-debnath-it github.com/Asccvivek

Experienced **Senior IT Project Manager** with **7+ years of hands-on software project management experience at Nex Gen Tech** and 12+ years of total professional experience leading software delivery across Restaurant SaaS, Enterprise Applications, CRM, HRMS, Marketplace Platforms, and AI-enabled product development. Expertise across full-lifecycle SDLC, Agile, and Scrum methodologies, directing stakeholder management, requirement gathering, business analysis, sprint planning, release management, QA/UAT coordination, risk mitigation, and cross-functional leadership. Leverage Generative AI and LLM-based workflows to accelerate requirement analysis, project documentation, sprint planning, backlog refinement, meeting summaries, technical specifications, and project coordination while improving software delivery efficiency.

CORE SKILLS

PROJECT MANAGEMENT

- Project Planning & Scheduling
- Requirement Gathering & BA
- Stakeholder & Client Mgmt
- Team Coordination & Leadership
- Risk Mgmt & Change Control
- Feature Prioritization & Scope
- Project Documentation

SOFTWARE DELIVERY & SDLC

- SDLC (Full Lifecycle)
- Agile & Scrum Methodologies
- Sprint Coordination & Planning
- QA Coordination & Test Planning
- User Acceptance Testing (UAT)
- Bug Tracking & Triage
- Release Planning & Deployment

TECHNICAL COORDINATION

- API Fundamentals
- Database Fundamentals
- Frontend/Backend Integration
- Cross-functional Team Alignment
- Technical Documentation
- System Integration Planning

PROFESSIONAL EXPERIENCE

Senior IT Project Manager

Feb 2019 – Present

Nex Gen Tech • IT Services & Software Development

Led the planning, execution, and delivery of complex software projects within defined timelines, scope, and budget. Directed cross-functional engineering, design, QA, and stakeholder teams, managed project requirements, monitored delivery milestones, resolved technical blockers, ensured rigorous QA/UAT quality standards, and maintained transparent status communication with management and clients:

eRestro (Restaurant POS & ERP): Led end-to-end project planning, requirement gathering, workflow design, sprint execution, and release coordination for a multi-tenant restaurant operations platform covering QR ordering, multi-station Kitchen Display System (KDS), POS billing, recipe BOM inventory auto-deduction, and WhatsApp CRM. Mapped order status workflows (pending → preparing → served), table release triggers, role-based access permissions, and audit compliance logging.

Tract (Tract AI Voice Platform): Led technical requirement analysis, workflow specifications, and sprint milestones for a desktop voice-to-text platform utilizing on-device speech transcription. Coordinated development and QA/UAT testing iterations to ensure user privacy, low latency, and accurate dictation integration.

ElectricDada (ElectricDada Marketplace): Led project planning, functional requirement analysis, workflow design, release planning, and QA/UAT coordination for a multi-role on-demand electrical services marketplace connecting customers, certified electricians, shop owners, and system admins to ensure successful MVP deployment.

Nex Gen HRMS: Led requirement gathering, business analysis, backlog grooming, and sprint planning for an enterprise HR management platform covering automated payroll calculations, biometric attendance tracking, recruitment pipelines, and employee directory modules.

Elite Works CRM & Nex Gen Homecare: Led project timelines, risk management, and QA/UAT testing for field workforce CRM solutions (GPS attendance verification, inventory tracking, offline sync logic) and healthcare home-service provider booking workflows.

Salonix, Unity Greet Canvas Editor, 1 Tom Plumber & Synergy Tech: Led requirement documentation, sprint coordination, conflict resolution algorithms, QA/UAT validation, and milestone delivery across salon appointment scheduling, digital canvas graphics editing, on-demand plumbing, and enterprise IT service projects.

PREVIOUS EXPERIENCE

Placement Officer

Jan 2016 – Jan 2019

Orion Edu Tech

Led placement operations: employer relations, candidate screening, interview scheduling, placement drives, and student recruitment records.

Team Leader

Feb 2012 – Nov 2015

Firstsource

Led customer support team operations, performance QA, escalation handling, agent mentoring, KPI tracking, and operational service reports.

TOOLS & TECHNICAL SKILLS

TASK MANAGEMENT

- Linear
- MS Planner
- MS To Do

MICROSOFT 365

- Teams
- Outlook
- Loop
- Calendar
- MS Excel

COLLABORATION & PM

- GitHub
- Google Workspace
- MS Office

DEPLOYMENT & DESIGN

- Figma
- Hostinger / cPanel
- Vercel / Netlify

AI-ENABLED DELIVERY

- ChatGPT • Claude • Gemini
- Prompt Engineering
- AI-assisted Requirement Gathering
- AI-assisted Documentation
- AI-assisted Sprint Planning
- AI-assisted Product Planning
