VIVEK DEBNATH

Senior IT Project Manager & Software Project Manager

Results-oriented IT Project Manager with 12+ years of professional experience orchestrating multi-platform digital ecosystems, requirement gathering, and cross-functional team coordination. Expert in the Software Development Life Cycle (SDLC) and Agile methodologies, translating complex business requirements into actionable technical plans. Focuses on coordinating frontend/backend developers, UI/UX designers, and QA teams to deliver scalable, user-centric software solutions.

PROFESSIONAL EXPERIENCE

Senior IT Project Manager

Feb 2019 – Jun 2026

NexG — IT Services & Software Development • Bhopal, India

Managed cross-functional product development cycles, coordinated development teams, and facilitated client communications. Led project planning, sprint coordination, and deployment execution for the following core platforms:

eRestro (Restaurant ERP & POS): Coordinated product requirements, sprint planning, QA cycles, and release deployment for QR-ordering, KDS, and analytics. **Challenge:** Consolidating dine-in and delivery flows. **Outcome:** Unified ERP eliminated kitchen order routing errors.

ElectricDada (Electrical Marketplace): Mapped customer, electrician, and shop owner journeys, and managed UAT for localized provider booking. **Challenge:** Real-time dispatch over low-bandwidth connection. **Outcome:** Functional booking MVP with price transparency.

NexG HRMS: Gathered requirements and coordinated sprints for internal payroll, recruitment workflows, and check-in attendance modules. **Challenge:** Transitioning manual payroll and dynamic shifts. **Outcome:** Portal reduced processing cycle times.

NexG Homecare: Healthcare home service dispatch system. Documented visit scheduling, provider allocations, and compliant admin dashboards. **Challenge:** Mobile visit logs that protected patient privacy. **Outcome:** Improved visit dispatch scheduling.

Unity Greet Canvas Editor: Personalized card designer. Managed technical rendering limits, vector resolution scaling, and canvas UI review. **Challenge:** Translating rendering limitations into simple user UI controls. **Outcome:** Print-ready vector exporter.

Salonix: Beauty booking system. Coordinated staff calendars, booking slots, and UAT. **Challenge:** Double-booking conflicts across multiple staff members. **Outcome:** Conflict-free online appointment scheduling.

1 Tom Plumber: Dispatch and booking platform. Documented emergency plumber routing and location lookup. **Challenge:** Routing fallback logic for unaccepted plumbing requests. **Outcome:** Structured emergency service coordination.

Elite Works CRM: Field contractor CRM. Managed scope definition, milestones, and GPS check-in QA. **Challenge:** Capturing check-in locations offline and syncing reliably. **Outcome:** Operational CRM reduced client billing disputes.

Synergy Technologies: Platform operations tracker. Managed sprint plans, documentation, and stakeholder status updates. **Challenge:** Standardizing inconsistent requirements templates. **Outcome:** Centralized wiki streamlined onboarding.

PREVIOUS EXPERIENCE

Placement Officer

Jan 2016 – Jan 2019

Orion Edu Tech

Coordinated placement operations: employer relations, candidate screening, interview scheduling, placement drives, and student recruitment records.

Team Leader

Feb 2012 – Nov 2015

Firstsource

Led customer support team operations, performance QA, escalation handling, agent mentoring, KPI tracking, and operational service reports.

CORE COMPETENCIES

Project Management

- Project Planning & Scope Definition
- Requirement Gathering & Analysis
- Stakeholder & Client Management
- Risk & Change Control

Software Delivery & Business

- Agile & Sprint Planning
- QA Coordination & UAT
- Workflow & User Journey Design
- Release Planning & Deployments
